## OUTCOME OF CBCS ZOOG SYLLABUS

- Implementation of SEC papers in CBCS Zoology (G) syllabus open a variety of prospects to all types of students.
- Apiculture, Aquarium Fish keeping, Sericulture, Medical Diagnosis -studies of such papers provide valuable basic knowledge & scopes in the field of applied zoology. Such knowledge also helps them in future job aspects. For example, Beekeeping, ornamental fish rearing, silk rearing is long standing and deep-rooted household activity for rural communities as well in semi-urbanized area whereas 'medical diagnosis' study provide knowledge on accurate and efficient diagnostic procedures, which are crucial for doctors to create effective treatment plans that allow patients to recover as quickly as possible with the least number of complications.
- Zoology(G) DSE papers include- aquatic biology, Biology of insects, Ecology & Wildlife Biology. Those papers are most valuable to introduce our students with our circumstances, or our Ecosystem. It's also very much important to generate awareness.
